Dear Mr. Dlouhy:

Your very interesting letter of April 15 has just been forwarded to me by Dell. It is important for me to know if all of these clippings are from the same issue of the San Francisco Examiner.

The picture of Mrs. Kennedy and Clint Hill was taken by Altgens and, therefore, does not show him in it. He was using a telephoto lens which has a shortening effect.

You are quite correct about the pictures showing Kennedy staffers and its importance. I do thank you for it.

If I understand you correctly about Jackson as quoted in the paper, what the paper says is misleading. The men he saw were others on the fifth floor.

Sincerely,

Harold Weisberg
